

Please do not replace the K-LOVE signal with other programming.

(1) K-LOVE is wholesome and encouraging; It is the type of media I desire for my 4-year-old son to be exposed to.

(2) Many of my friends and their children listen to K-LOVE. If it is displaced, we will be without healthy, contemporary, wholesome radio to listen to.

(3) They say "Garbage in, garbage out...". We have enough radio stations already that put garbage in our minds and what do we seem to reap? Garbage in society. Please...please do not replace K-LOVE with other programming.

Sincerely, and gratefully,

Emily J. Rohm
